Everestmiles Portfolio

Leading Contractors in Building and Maintenance
for the Education Sector

Education

Everestmiles has extensive experience delivering high-quality construction, refurbishment, and maintenance projects for schools across Sussex and the Southeast. We understand the unique demands of educational settings, where careful planning, minimal disruption, and adherence to tight schedules are essential.

Our expertise spans a wide range of school projects from classrooms, accommodation units, canteen/dining halls, sports and toilet facilities including:

- **New builds**
- **Extensions**
- **Reconfigurations**
- **Conversions**
- **Refurbishments**
- **External repair and redecoration projects**

All operatives are DBS checked. In addition to our own trained and skilled operatives, we have a valuable resource in our established and experienced supply chain of sub-contractors and suppliers.

Schools we work with:

BURGESS HILL

What our clients say

“Everestmiles are easy to work with. They have always finished on time leaving the site clean and tidy with the work being of a high standard. Communications are clear and easy and the persons they have working on site are approachable and considerate.

They deal with variations and change well and are always happy to do what they need to keep their client happy and fulfil the brief”.

Marc Shirt

Head of Estates Capital Projects
Brighton College

“Everestmiles have completed a wide range of building and refurbishment projects across the school campus over a number of years. The projects range from a few hundred pounds through to several hundred thousand pounds in value. To date the projects have been completed on time, within agreed budgets and often with short contract periods.

We have found their site staff to be very approachable, good communicators and willing to sort out any issues. Valuations are always produced in a timely manner and accurate. Based on their work to date I would not hesitate to recommend them for any type of building projects”.
